COMPANY PORTRAIT

GLOBAL HEALTH

OVERVIEW

"Global Health group of companies" was founded by mastermind Siegmund Kahlbacher together with Austrian Investors in 2004 to commercialize the agent xCid on a global scale.

Global Health group's majority shareholders are "GH HoldCo Ltd." Hong Kong. The group of companies includes "GHB Technologie Handels- und Verwertungs GmbH" (GHB) in Austria, "Global Biotech (Beijing) Co., Ltd." (GBB) based in Beijing, "GH Bioscience Sdn. Bhd." in Malaysia and "GH Hygienic Care Sdn. Bhd." (GHH) in Malaysia. Global Health has developed 7 product groups comprising over 100 different products under the brand names Global Health and Care & Safe.

The products for the retail market serve prevention and disinfection. The most successful areas of application to date have been in hospitals, hotels, personal healthcare, veterinary products, industrial applications, including the automotive and agricultural industry.

The active compound xCid is produced in Austria. Global Health group owns the xCid patents and the global distribution right for Care & Safe products based on xCid worldwide.

GBB is the licensed partner for greater China and produces Global Health and Care & Safe products for the Chinese market. "GH Hygienic Care Sdn. Bhd." produces Care & Safe products in Malaysia and operates as the exclusive trading company for the export business worldwide.

Global Health Group has license partners in more than 40 countries already, by the end of year 2015, the certification process in all those countries will be finished. By year 2016, GHB will have over 5 billion clients worldwide.

About xCid

xCid is:

- Able to kill harmful bacteria (99.999% killing rate), fungi, most viruses and eliminates mould
- Smell eliminating (different types of household odours, clothing, cars, even smoky hotel rooms will be deodorized)
- Non toxic to humans and animals

Perfection from Europe

Hand Disinfectant Gel

Hand Disinfectant Gel has a brand new waterless formula for hand disinfection. Washing hands can only remove dirt and a small proportion of bacteria and viruses on skin. Hand Disinfectant Gel helps to remove bacteria on hands thoroughly. Just a small wipe disinfects the hands completely and keeps them free of germs. The fresh gel formula is non sticky and the active care ingredient moisturizes and protects the skin while disinfecting.

[SPECIFICATION] 350ml / 30ml

Hand Wash Foam

Rich foam, easy wash, small dose. Compared to ordinary wash foams, it can thoroughly kill bacteria by causing no resistance at long term use. Soft moisturizing formulation can smooth and soften your hands as well.

[SPECIFICATION] 350ml / 60ml

First Aid

- Wound Treatment
- Skin Disinfection
- Hand Disinfectant

The **First Aid Spray** is colourless, odourless, non irritating and environmentally friendly thanks to its aqueous formula. The product is used to disinfect small wounds and hands.

With its ability to kill and prevent bacteria effectively, it is the ideal companion for everyday use.

[SPECIFICATION] 50ml

Pro-Health Mouth Wash

With special disinfection effect the product can effectively kill harmful germs in oral cavities, inhibit their reproduction and clean teeth, eliminate abnormal odour, prevent and reduce oral diseases.

Pro-Health Mouth Wash can be used long term because it is alcohol free, non colourizing, non irritating, and has no side effects.

[SPECIFICATION] 500ml / 250ml

Perfection from Europe

Disinfectant for Air Conditioner

Experts have pointed out that in long term used air conditioners, large numbers of harmful microorganism, especially fungi can grow. These can cause coughs, allergic and other symptoms, like slight fever. This product kills all hidden germs in air conditioners without any negative side effect, like corrosion. Just a slight spray can effectively help to avoid the spreading of germs through air conditioning.

[SPECIFICATION] 250ml

Disinfectant for Surface Spray

This product can be used to disinfect all types of surfaces without doing harm to the material. It contains **xCid**, an innovative compound with a bacteria killing rate of 99.999%. It is a new generation of biocides. Safe, effective and not harming the environment.

[SPECIFICATION] 250ml

Household Air Purifying & Disinfection

The product is used to purify and improve indoor air quality by rapidly killing harmful germs and viruses, like pneumonia, flu etc. It can effectively dispel or reduce smoke, mould and other irritating odours to keep the ambient air fresh and guarantees the entire family's health.

[SPECIFICATION] 250ml

Disinfectant and Purifying for Refrigerator

Disinfectant and Purifying for Refrigerator kills 99.999% of harmful bacteria. The prevention effect lasts for over a week. It is not harmful to the refrigerator and the food inside while dispelling or reducing odours.

[SPECIFICATION] 250ml

Antimicrobial Multipurpose Cleaner (Environmentally Friendly)

With neutral formula, the product is able to cleanse and kill bacteria on surfaces of ordinary objects non-corrosive against surface, suitable for materials made of glass, china, plastic, wood, stone, etc., and causes no dying and discoloring.

[SPECIFICATION] 250ml

Fruits and Vegetables Antibacterial

The product is colourless, odourless and non irritating to skin. It can inhibit the regeneration of Escherichia coli, (e.g. EHEC), Clostridia, Salmonella, Cholera and other bacteria. The spray combines antibacterial, refreshing and mould-preventing functions, removes pesticide residue on fruits and vegetables and is environmentally friendly.

[SPECIFICATION] 250ml

Disinfectant for Computer Keyboards

Cleans and disinfects keyboards, computer mice, phones and other office equipments. Effective against bacteria, viruses and fungi. Safe for all kinds of material.

[SPECIFICATION] 30ml
